## About Me

As a dynamic Python Django Full Stack Developer, I'm excited to kick-start my career with a strong background in web development. Proficient in Python, Django, and front-end technologies, I bring a blend of creativity and technical expertise to build robust and user-friendly applications. Eager to contribute innovative solutions, I am committed to staying ahead of industry trends and delivering high-quality results through efficient problem-solving. Ready to make a meaningful impact, I am poised to bring enthusiasm and skill to every project.

## Projects

- **Scrap box** (buying and selling used goods Web application):  
Scrap box is an online market place for buying and selling used goods. It allows users to post free classified ads to sell items like electronics, furniture, household goods, cars, and various other products. Using **Python Django**.  
Frontend : HTML, CSS, Bootstrap  
Backend : Python Django Framework  
Link : <https://github.com/AneesArr/scrappapp>
- **To-Do List** (To-do Web application):  
Developed a secure and efficient web application using **Python and Django**, implementing user authentication features to create a to-do list platform, showcasing my proficiency in full-stack development and ensuring a seamless user experience.  
Frontend : HTML, CSS, Bootstrap  
Backend : Python Django Framework  
Link : <https://github.com/AneesArr/todo>
- **Event Booking System** (Online event booking Web application):  
Event Booking System is an event technology and services that will revolutionize the event industry by providing a total solution for organization and management of events. It includes budgeting, scheduling, site selection, photography, catering, makeup works, decoration works, etc. Using **Python Django**.  
Frontend : HTML, CSS, JavaScript  
Backend : Python Django Framework  
Link : <https://github.com/AneesArr/event>
- **Link Sphere** (Social networking Web application):  
It is a social networking web application using **Python Django**.  
Frontend : HTML, CSS, Bootstrap  
Backend : Python Django Framework  
Link : <https://github.com/AneesArr/socialapp>
